BATTERY CHARGERS

BATTERY CHARGERS

4 Amp Waterproof Battery Charger & Maintainer CBC4W

The Cat® Professional 4 amp waterproof cTharger is perfect for battery maintenance, charging RVs, specialty vehicles, antique and classic cars, marine deep cycle batteries, motorcycles, lawn mowers, ATVs, snowmobiles, personal watercraft and more.

Connect to battery 3 different ways: Battery clamps, O-rings, or 12 Volt DC Cord.

12 Volt DC Accessory Plug

For use inside the vehicle

12V Battery Charger/ Maintainer

4 Amp High Frequency Battery Charger/ Maintainer. Charge and Maintain all 12 Volt Battery Types

Waterproof

Ideal for use in outdoor conditions. The housing of this unit is rated to IPX7 waterproof standards

Battery Clamps and Ring Terminal

For direct battery connection

Professional 10 Amp Battery Charger & Maintainer CBC10

Get convenient, automatic charging for your 6-Volt and 12-Volt AGM, GEL or WET battery plus lithium iron phosphate battery (LiFePO4). This handy unit functions as a battery charger, maintainer and trickle charger. Its fully automatic high frequency charging restores lost battery performance for stronger engine starts and extended battery life. The built-in circuit protection guards against overcharging and reverse polarity. Includes an easy to read LCD screen. .

Battery Charger

10 Amp Battery Charger and Maintainer- compatible with any 6-Volt and 12-Volt AGM, GEL & WET also works with lithium iron phosphate battery LiFePO4

Battery Clamps

For direct battery connection

BATTERY CHARGERS

70 Amp Multi-bank Charger CBC70MBE

The Cat® 70 Amp High Frequency Professional Battery Charger has a multi-bank feature which can charge up to 3 batteries simultaneously. The charger provides up to 70 amps of automatic multi-stage charging for 12 volt battery systems and a power selector dial. The unit comes with patented features like 1440 Watt engine start and alternator check. Other features include battery reconditioning and float mode charging.

The unit also features a digital LCD display screen, 96" heavy duty #4 AWG gauge cables and industrial grade powder coated spark proof metal clamps.

Battery Charger

70 Amp High Frequency Battery Charger/ Maintainer. Charge and maintain all 12 volt battery types

Battery Recondition

Electric pulse technology can help reverse sulfate build-up on battery plates to improve charge capacity and extend battery life

Engine Start

Patented 1440 Watt Engine Start. Helps to start most vehicles in 90 seconds

Multibank Charging

Charge up to 3 batteries simultaneously. *Multibank clamps & cable sets sold Separately

Alternator Check

Patented Alternator Check. Tests the vehicle's alternator to indicate if operating correctly

Professional 100 Amp Battery Charger & 3 Amp Maintainer CBC100E

A true multi-tasker, the CAT CBC100E Battery Charger and Battery Maintainer is the high efficiency solution for 12 volt WET, GEL and AGM batteries. It provides a powerful 100 amp engine start, 25 amps of charging and 3 amp maintainer. The alternator check tests the vehicle's alternator to indicate if it is operating properly. Electric pulse technology can help reverse sulfate build up on battery plates to improve charge capacity and extend battery life. Built-in reverse polarity protection.

Battery Charger

25 Amp High Frequency Battery Charger/ Maintainer. Charge and Maintain all 12 Volt Battery Types

Alternator Check

Patented Alternator Check. Tests the vehicle's alternator to indicate if operating correctly

Engine Start

Patented 100 Amp Engine Start. Helps to start most vehicles in 90 seconds

Battery Recondition

Electric pulse technology can help reverse sulfate build-up on battery plates to improve charge capacity and extend battery life

BATTERY CHARGERS

200 Amp Rolling Battery Charger & Maintainer CBC200EW

Roll it where you need it. The CAT CBC200EW Battery Charger and Battery Maintainer is the high efficiency automatic solution for cars, trucks, SUVs, marine vehicles and RVs. It provides a powerful 200 amp engine start, 40 amps of charging and 3 amp maintainer. Compatible with standard 12 volt AGM batteries. Built-in circuit protection guards against overcharging, reverse polarity or short circuit. The alternator check tests the vehicle's alternator to indicate if it is operating properly. Electric pulse technology can help reverse sulfate build up on battery plates to improve charge capacity and extend battery life.

JUMP STARTERS

1200 Peak Amp Digital Jump Starter CJ1000DXT

With the CAT CJ1000DXT Jump Starter and Power Station, you've always got roadside assistance within arm's reach. Featuring integrated jumper cables and a 1200 peak amp jump starter, it's powerful enough to start up even large V8-powered cars and trucks. The 120 PSI automatic compressor helps you top off tires at the push of a button thanks to the digital display & AutoStop™ functionality. And the built-in 200-watt portable power inverter is ideal for recharging personal electronics and providing household 120V AC power on-the-go. User-friendly with an integrated safety switch and reverse polarity alarm, the CAT CJ1000DXT is a powerful 3-in-1 upgrade for your family vehicle or work truck.

1200 Amp Jump Starter

1200 Peak Amp Jump Starter that's powerful enough to start V8 cars and trucks

200 Watt Power Station

200-Watt Portable Power Inverter provides easy household power on-the-go for smartphones and portable electronics

6.2 Amp USB

Provides up to 6.2 Amps USB Charging Power for phones, tablets & electronic devices

120 PSI Compressor

120 PSI AutoStop™ Compressor with brass-tipped Sure Fit® nozzle makes inflating tires easy

1200 Peak Amp Li-ion Jumper CLJ1200

The CAT 1200-Peak-Amp Li-Ion Jump Starter is a compact solution for jump-starting most vehicles on the road today-including most V8-powered cars and trucks. It comes with detachable smart jumper cables that have integrated reverse-polarity protection. This helps ensure you make a proper connection with ease. Also ideal for rapid-charging your compatible smartphones and electronics, the jump starter includes a standard USB port in addition to a USB-C port. The integrated LED work light is helpful for dealing with car trouble in the dark. The 3-bar battery display is quick and easy to read and the jump starter comes with an AC and a DC adapter for charging.

1200 Amp Jump Starter

1200 peak battery amp starting power. Helps to jump-start most 12V vehicles without the need for another vehicle

Alternator Check

Includes a standard USB port in addition to a USB-C port

Includes Battery Clamps

For direct battery connection, cables are detachable

JUMP STARTERS

2000 Peak Amp Jump Starter CJ3000

The CATERPILLAR CJ3000 Professional 2,000 Peak Amp car jump starter is the ultimate portable power station, with enough power to fire up most cars, trucks and SUVs even in the harshest weather. It's easy to use, with push-button controls, LED indicator lights and a reverse polarity protection alarm to ensure that it's connected correctly. And the 48", heavy duty #4 AWG cables can reach practically any connection. The CJ3000 jump box charges using a standard household extension cord (sold separately) Built with rugged, impact-resistant polymer housing and rubber bumpers, this Cat jump starter also features a handy area light and emergency flashers, so the CATERPILLAR CJ3000 is ready for anything life throws your way.

2000 Peak Amps

2000 Peak Amps & 1000 Instant Amps of starting power to fire up most vehicles including V8-powered cars & trucks

12V Accessory Outlet

Comes with a 12V accessory outlet

Spark-proof Clamps

Industrial-grade spark-proof clamps with a 48" 4-gauge cables for the better power transfer and longer reach

Powers 12V Batteries

Quickly powers most 12V batteries; Starts multiple vehicles on a single charge

Absorbed Glass Mat

AGM battery delivers superior performance, even in extreme heat and cold weather environments

Cube Jump Starter PPSCT2

The CAT PPSCT2 is a 5-in-1 solution. The 1200 peak amps of starting power instantly jump starts 12V vehicles up to 8-cylinders. Powder coated cables are included. 200 Watts of household power lets you keep small appliances, tools and more charged up. A USB powerbank keeps your tablets, phones, gaming devices and more charged up. There is also a convenient wireless charging pad. 120 PSI air compressor inflates tires or sports equipment.

120 PSI Compressor

120 PSI air compressor with heavy-duty brass tipped SureFit nozzle securely connects to tires, sports equipment and more

200 Watt Power Station

One 120 Volt AC outlet to power tool chargers, laptops and small personal electronic devices

1200 Amp Jump Starter

Helps to jump-start most 12V vehicles without the need for another vehicle

USB Powerbank

Dual USB ports to charge devices
